New York, Dec. 19.—The Tribune's Polly Island correspondent writes, Dec. 15th, that on Salurday morning, while the tide was receding, one of the privates of the 3d Rhode Island battery discovered from Yorf Fusam, on the beach, what he thought might be a brass field piece. The spade, is the course of the day, brought to the surface foo rounds of solid shot that just anited the allies of the piece. It is thought the rebels, before evacualing Gregg, buried a quantity of amminition of all sorts. A few days will decide the matter.

Morris Island, for a min, a lined on the beach with immense logs, thirty feet long and eighteen inches thick, factoned tagether by very strong band of iron. No traces can be discovered of where torpedous have been fastened. Now, if ever, is the time for the Admiral to make the attempt to go into Charleston.
